Education

Ramrao Adik Institute Of Technology

Bachelor of Engineering in Computer Science

CGPA - 9.17

August 2019 – May 2023

Navi Mumbai, Maharashtra

Experience

Tata Consultancy Services(Digital)

Software Engineer

October 2023 – Present

Pune, Maharashtra

- Designed and developed **RESTful APIs** using **Java** and **Spring Boot** supporting high-volume business applications.
- Integrated **Spring Boot MVC** and **Spring Data JPA** to streamline data access, ensuring robust communication between application layers and **PostgreSQL** databases.
- Resolved production bugs and optimized legacy code, improving system stability and reducing downtime by **20%**.
- Documented **APIs** and application workflows to support development and testing teams.
- Collaborated in Agile teams, participated in sprint planning and retrospectives, and contributed to delivering features on time.

Projects

Ecommerce Website 🛠 | *Python, Django-Framework*

- Developed An online ecommerce website using Django Framework for online shopping, integrated payment gateway for transaction.
- Implemented sections which contains different products categorized according to its category.
- Implemented authentication system using Django Authentication.
- It uses HTML, CSS, jQuery, Bootstrap, Django Framework.

Study Portal 🛠 | *Python, Django-Framework*

- Created a student-focused portal with tools like TODO, YouTube Search, Dictionary, and Wikipedia API.
- Implemented authentication using Django Authentication System.

Malware Identification Using Machine Learning | *Python, Machine Learning*

- Developed a malware detection model that implement machine learning to detect unknown malware.
- Implemented ensemble algorithm which have slightly greater accuracy than other algorithms.
- Created frontend Using flask framework to upload the executable file.
- Accepts PE files as input. The algorithms predicts the file is malicious or benign.

Technical Skills

Languages: Java, Python, C, JavaScript, HTML/CSS

Database: SQL

Technologies/Frameworks: Spring Boot, Django, Microsoft Azure, Tailwind CSS, Bootstrap, GitHub, Git

Certifications

- Microsoft Azure Developer Associate, April 2024
- Microsoft Azure AZ 900 Fundamentals, February 2024
- Coursera Algorithmic Toolbox, December 2021.
- Certificate of Developing Soft Skills and Personality , NPTEL 2020.

Relevant Coursework

- | | | | |
|-----------------------|-----------------------|---------------------|-------------------|
| • Data Structures | • Machine Learning | • Computer Networks | • Web Development |
| • Algorithms Analysis | • Database Management | • Operating System | • OOPS |

Extra Curricular

- Secured 97 percentile in GATE Computer Science Engineering (CSE), demonstrating strong understanding of core computer science fundamentals including algorithms, data structures, operating systems, and databases.
