Objective

Passionate Full Stack Developer with a proven track record of delivering scalable, secure, and high-performance web applications. Eager to contribute to a dynamic organization where innovation, growth, and continuous improvement are core values.

Professional Summary

- ✓ Full Stack Developer with 3+ years of hands-on experience in developing scalable web applications and **RESTful APIs** using **PHP Laravel Lumen, JavaScript and React.js**.
- ✓ Expertise in microservices architecture, **third-party API integrations**, and secure authentication mechanisms.
- ✓ Strong experience in **Auth0 integration, API gateways**, and modern DevOps tools.
- ✓ Proficient in end-to-end application development, testing, and deployment with a strong problem-solving attitude.
- ✓ Experienced in collaborating with **international clients** to deliver tailored technical solutions across time zones.
- ✓ Agile team player with a consistent track record of delivering projects under tight deadlines.

Professional Experience

Senior Full Stack Developer (TYA Business Solution Pvt Ltd) | Remote
Client: New Zealand Web soft (Contract Project) | Feb 2025 – Present

- ✓ Worked on modernizing authentication and API security for a **New Zealand-based client**.
- ✓ Implemented a secure **Auth0-based system** using Laravel, React.js, and MySQL with role-based access and token handling.
- ✓ **Managed UAT and production servers**, handling deployments, SSL, and server configuration.
- ✓ Worked with QA on stable, secure deployments and monitored system performance.

Software Developer

Binated Inc. | August 2024 – January 2025 | Pune

- ✓ Developed scalable web solutions using **Laravel, React.js and MySQL**, optimizing performance and reliability.
- ✓ Integrated **Pulse ID APIs**, enabling real-time functionality and enhanced data flow between systems.
- ✓ Built and maintained modular, reusable code components aligned with client architecture.

Software Developer

Plus91 Technologies Pvt. Ltd. | July 2023 – August 2024 | Pune

- ✓ Developed full-featured healthcare claim web applications using **Laravel, MySQL, React.js**, and modern web technologies.
- ✓ Created and consumed APIs, implemented **microservices** with Lumen, and ensured **robust API gateway handling**.
- ✓ Led **data accessibility features** by integrating third-party APIs and building secured endpoints.

Full Stack Developer

Map My Crop (Hardcastle Agro Tech Solution Pvt. Ltd.) | April 2022 – June 2023 | Pune

- ✓ Delivered agriculture-focused applications using PHP, Laravel, and JavaScript.
- ✓ Designed and tested backend APIs using **Postman** and ensured seamless integration with frontend apps built in React.js.
- ✓ Assisted in refactoring legacy code to adopt **modular design** principles.

Projects

- ✓ **Auth0 Integration for NZ Client (TYA Business Solution Pvt Ltd):**
Built secure login and authorization system using Auth0, Laravel, and MySQL. Optimized API response times using caching and token management. Enhanced user account and organization sync features with ACL permission support.
- ✓ **NHA Government APIs (Plus91 Technologies):**
Integrated National Health Authority APIs into existing applications with focus on security, error handling, and compliance with healthcare data protocols.
- ✓ **Middleware Development (Plus91 Technologies):**
Designed middleware layers in Laravel for request/response transformation, JWT validation, and user context injection across services.
- ✓ **Third-Party API Integrations (All Companies):**
Integrated a wide range of APIs (Auth0, Pulse ID, Google Maps, custom internal APIs) to enhance product capabilities.
- ✓ **Web Application Development:**
Built full-stack applications using Laravel, PHP, React.js, tailored to various clients with modular components, responsive designs, and database optimization.
- ✓ **Bug Fixes and Issue Resolution:**
Managed feature updates, versioning, and bug tracking using JIRA, ensuring stability and consistency in multi-module applications.

Technical Skills

- ✓ **Languages:** PHP, Laravel, Lumen, JavaScript, MYSQL
- ✓ **Frameworks & Libraries:** Laravel, Lumen, React.js, jQuery, Bootstrap
- ✓ **Web Technologies:** HTML5, CSS3, AJAX, REST APIs
- ✓ **Databases:** MySQL, PostgreSQL
- ✓ **Tools:** Git, Postman, PhpMyAdmin, SourceTree, Navicat, Bitbucket, JIRA
- ✓ **Platforms/OS:** Windows, Ubuntu, Linux
- ✓ **Other:** Auth0, OAuth2, JSON Web Tokens (JWT), Microservices, API Gateway, (CI, CD) Pipeline

Education

Master of Science (M.Sc.) in Computer Science | 2022
Nowrosjee Wadia College, Pune
