About Me

Highly skilled and motivated Full Stack Developer around 2 years of experience in product based organization on the lending domain, adept at developing innovative and efficient solutions for financial products. Proficient in full-stack development, with a focus on delivering robust and scalable applications to enhance the lending process. Demonstrated ability to work in cross-functional teams and deliver quality software products on time.

Professional Experience

Aurionpro Solutions Limited | Sr. Software Engineer

(formerly AS Software Services Pvt. Ltd)
Nov 2023 – Present

Key responsibilities:

- My employer (AS Software Services Pvt. Ltd.) was acquired by a company (Aurionpro Solutions Limited). I am doing the same exactly thing I was before, with same job title and duties.
- Developing robust, scalable, and secure software solutions for the fintech lending platform. This involves writing clean, efficient code using appropriate languages and frameworks.
- Managed project timelines, budgets, and resource allocation for software development projects, ensuring all milestones were met.

AS Software Services Pvt. Ltd. | Software Engineer

Nov 2022 – Nov 2023

Key responsibilities:

- Successfully converted whole credit processing and master module from Struts 1.x to Spring Boot
- Collaborated with cross-functional teams to gather requirements, design, and implement lending domain applications, ensuring adherence to coding standards and best practices.
- Developed and maintained critical modules for the lending platform, contributing to a 20% increase in application efficiency.
- Conducted thorough testing and debugging of software components to identify and resolve issues promptly, resulting in 95%+ bug-free releases.
- Assisted in the migration of legacy systems to modern frameworks, reducing maintenance overhead by 30%.
- Participated in code reviews and provided constructive feedback to team members, fostering a culture of continuous improvement.
- Collaborated with the QA team to develop and execute comprehensive test plans, ensuring software
