EXPERIENCE

RMSI

Junior Software Developer

September 2023 - Present, Noida, India

- Working in the application Development team for effectively fix the bugs and optimize the overall performance using Java 8, Spring MVC, PL/SQL, Hibernate, Javascript.
- Automated builds with Apache Maven and using Jenkins for different applications, enabling faster software releases. .
- Designed templates using XSL/XML by writing clean, Maintainable, Scalable and well tested code which helps the client to get the desired output.
- Created database objects and impleted logics using PL/SQL by developing various functions, triggers, procedure and queries.
- Adhered 100% to standards and best practices around development processes, coding, and peer reviews.
- Planned, tracked, and managed 100+ deliverables on short-term sprints and long-term software deployments.
- Learned company standards of application software development, Agile, and iterative development methodologies .
- Worked with executed unit test cases by using JUNIT for accuracy code and logging with log4j2.

PROJECTS

Chrome Extension : This extension will fetch a random Joke every time a user clicks on it. The manifest tells Chrome about your app, what it is, how to launch it, and the extra permissions that it requires. Used HTML, CSS, JavaScript and JSON (JavaScript object notation). Project link- <https://github.com/explore-06/ChromeJoke>

Library Management System : Developed a library Management system for book and authors record. The interface allows you to enter Author information, Book Information including user assigning to particular book or revoked user name. **Key tools used:** JAVA 8, MySQL, Spring MVC Structure, Hibernate.

Academic and Extracurricular Achievements

- Problem solver on leetcode and geeksforgeeks coding platform.
- Got two times **On The Spot** award from RMSI for great contribution in the sprint development work.
- Actively participated in Company's tech fests and Hackathons.
- Team leadership in various cultural college events.

SUMMARY

Skilled software engineer having experience in Java development and a zeal for backend innovation, I thrive in high-performance environments. Proficient in Java, Spring MVC, Microservices, PL/SQL, Hibernate, XML/XSL, HTML, CSS, Javascript and passionate about advancing the functionalities and reliability of tech products.

SKILLS

Back End	Java, C++
Front End	HTML, CSS, JavaScript, NodeJs
DBMS	PL/SQL
Tools and Misc	Github, Weblogic, Junit/Mockito, Spring MVC, Hibernate

EDUCATION

ACCURATE INSTITUTE OF MANAGEMENT AND TECHNOLOGY Noida, India
Bachelors of Engineering
CGPA: 8.5

CBSE Delhi, India
12th Percentage: 65.8

CBSE Delhi, India
10th Percentile: 8.8

LANGUAGES

- English (Advanced)
- Hindi (Native)

INTERESTS

- Learning new technologies.
- Problem Solving.
- Cooking.
