SUMMARY

Results-driven Software Engineer with 2+ years of backend experience in Laravel, MySQL, REST APIs, and JavaScript. Skilled in building scalable systems with hands-on experience working on Ubuntu servers for deployment and maintenance along with Cloud/AWS technologies.

SKILLS

- **Technical:** PHP, Laravel MVC Framework, JavaScript, Basic Python, MySQL, REST APIs
- **Development Tools:** VSCode, Git, Postman, Jira, MySQL Workbench, Kaggle, WinSCP, PuTTY

PROFESSIONAL EXPERIENCE

Cogent E Services, Software Developer Executive

Jun 2023 – present | Noida, India

- Developed and maintained scalable backend systems using Laravel (PHP) and MySQL, ensuring high performance and reliability; dynamic, data-driven dashboards and reporting modules to support business intelligence and decision-making.
- Designed and implemented secure RESTful APIs for seamless system integration and data exchange.
- Optimized complex SQL queries, improving data retrieval performance for analytics by up to 30%.
- Worked in an Agile development environment, utilizing tools like Jira for sprint planning, task tracking, and team collaboration.

PROJECTS

Live Lead Hub, PHP laravel Framework, MySQL, REST APIs, Cloud Technologies ☞

- Engineered and deployed a CRM for clients like Tata Motors, Eicher Track, etc, enabling automated emails, WhatsApp messages, and SMS to customers, along with real-time progress and location tracking, streamlining communication, and enhancing customer engagement.
- Programmed robust RESTful APIs for smooth data communication, significantly reducing response time and improving user satisfaction.
- Utilize AWS services to deploy and manage applications in a cloud environment.

Learning Management System, PHP Laravel Framework, JavaScript, HTML, CSS, MySQL, ☞

- Built a fully dynamic role-based access system with real-time performance tracking and dashboards.
- Integrated real-time test result calculation and dynamic certificate generation with secure user management

Report and Dashboard Automation, MySQL, PHP Laravel Framework, JavaScript, Ajax, JQuery

- Developed a PHP backend CRM along with dialer CTI Pages for automated daily reporting, boosting agent performance, and providing insights on call trends for customer sales and services.
- Designed a product that delivered comprehensive call analytics to aid in monitoring call center performance, enhancing agent efficiency by 20%.
- Elevated customer satisfaction, directly resulting in a 15% daily service count increase.

EDUCATION

Mahatma Gandhi Mission's College Of Engineering And

2019 – 2023 | Noida, India

Technology, Bachelor of Technology / Computer Science & Engineering

8.11 CGPA

CERTIFICATES AND AWARDS

- Enhancing Soft Skills and Personality – IIT Kanpur
- Time and Project Management – Coursera
