

ACADEMIC QUALIFICATION

Period	Institution/Board	Degree/Course	Marks/Grade
2019-2023	Institute of Technology & Management, Gwalior	B.Tech(Computer Science)	8.5 CGPA
2017-2018	Kendriya Vidyalaya I.T.B.P, Karera (CBSE)	XII	67.00%
2015-2016	Ideal Cambridge School, Karera (MPBSE)	X	85.00%

EXPERIENCE

Software Engineer, AML Right sources, Noida

Sep 2023 – Present

- **Transcation Quotes Page Optimization:**
 - Used **Redux Toolkit**, enhancing modularity and simplifying complex legacy code.
 - Achieved a **6% increase in user engagement** by improving performance and reducing unnecessary state updates.
- **Rider and KYC Journey Implementation:**
 - Developed a **Rider journey** to allow users to customize their transcation, enhancing flexibility.
 - Developed a backend-driven **KYC journey** to support multiple configurations, enhancing scalability by user.
- **Service Integration:**
 - Worked on KYC middleware service, designing and implementing CKYC and OVD compliance features using **Node.js**, **MongoDB**, **Redis**, handling 10K+ requests daily.
 - Implemented real-time document verification using **Surepass**, reducing manual effort by **20%**.
 - Integrated **JWT authentication** through API Gateway to ensure secure login and protect user data.
- **Performance Optimization:**
 - Resolved a critical **memory leak issue** in the B2C application, significantly reducing the required pod usage and lowering operational costs.
 - Migrated legacy code to a new repository, enhancing maintainability and scalability for both B2C and B2B users.
 - Improved **Cumulative Layout Shift (CLS)** metrics to enhance user experience and page load performance.
 - Assisted in **Dockerizing** the B2C frontend application, streamlining deployments and enabling improved scalability.

INTERNSHIP & PROJETCS

- **MNF, Intern – Data Analyst ([Link](#)) | Aug 22 – Nov 22**
Depression detection from social network data using machine learning techniques.
- **Sudheep I.T. Sol ltd - Computer Vision ([Link](#)) | Nov 21 – Feb 22**
Analyse user datasets of test cases used for validity & feasibility of integration.
- **Ecera System, Intern - Software development ([Link](#)) | May 20 – July 20**
Developed graphic content like user profile including product illustrations using Bootstrap library.
- **AICTE Edu skills – Virtual Internship Process**
- **User Management System:** Developed a comprehensive CRUD application using HTML, CSS, JavaScript, React.js, Node.js, Express, and MongoDB. This application enables users to efficiently manage user data by providing functionalities for creating, updating, and deleting user records within the MongoDB database.
- **Quick Fox | JavaScript**
Shows the path on the map which they should follow to finish their shopping. There are choices for users whether they want the shortest path to complete shopping, the cheapest one or a combination of both. The algorithm was mainly implemented using JavaScript. App was recognized as a potential start-up and useful society

TECHNICAL SKILLS

Frontend: React, HTML, CSS, JavaScript, Redux, SASS, Tailwind CSS, Webpack, Babel, Python, Machine learning

Backend: Node.js, Express.js, MongoDB, SQL

Tools & Frameworks: Salesforce, LWC, Apex, Git, Docker, Kubernetes, AWS, AB Testing, Redis, SEO

Additional Skills: Data Structures, Microservices, Distributed Systems, RESTful APIs, Grafana, NewRelic

ACHIEVEMENTS & CERTIFICATES

- Successfully solved over **1000 challenging Data Structures and Algorithms (DSA) questions** on Various platforms.
 - Recognized as a **Guardian on coding ninja** for expertise in problem-solving and algorithms.
- AWS Cloud Practitioner** (05/2022-05/2025) ([Link](#)) , **AWS Cloud Architecting** (01/2023-Present), Celonis Certifications – Credly , Cambridge BEC Preliminary Examination(03/22- Present)
