HARSHIT SHARMA

Summary

Results-driven **Sales Operations and Data Analyst** professional with over 5 years of experience in **CRM management, data analysis, and stakeholder collaboration**. Proficient in **Salesforce, MongoDB, SQL Server, and Excel** for driving sales process efficiency, managing large datasets, and delivering actionable insights. Proven track record in **optimizing workflows, improving data accuracy, and supporting global teams** through **robust reporting, user management, and operational support**.

Professional Experience

Consultadd Inc. – Sales Operations Specialist March 2025 – Present

- Lead sales operations and CRM data governance for a **global SaaS consulting firm**.
- Analyze pipeline performance, quota attainment, and sales KPIs via **Salesforce and Excel dashboards**.
- Improve lead routing, execute deduplication, and align account ownership using tools like **DemandTools and Workbench**.
- Own end-to-end **user lifecycle operations and access audits**.
- Partner with cross-functional teams to **streamline SOPs and automate reporting**.

Accomplishments:

- Reduced CRM **data errors by 30%**, enhancing conversion tracking.
- Cut reporting time by **40% through template automation**.
- Launched a unified KPI dashboard, **increasing leadership visibility**.

MongoDB –Junior Associate Sales Operation August 2022 – February 2025

- Managed sales data and user alignment using **MongoDB and Salesforce**.
- Performed bulk updates, audits, and data extractions for **dashboards and reporting**.
- Acted as POC for **user management and aligned systems** with SOPs.
- Supported projects like **quota planning, RAM alignment, and training documentation**.
- Used SQL for **ad hoc analysis and CRM enhancements**.

Accomplishments:

- Improved ticket resolution time **by 15% through process optimization**.
- **Enhanced L3 data accuracy and access speed** via streamlined collections.
- **Developed user guides** that reduced onboarding time.

Wipro Technologies – Associate
December 2020 – July 2022

- Supported **FedEx Ground** by managing server-related data and promptly resolving user queries from multiple stations.
- Extracted and managed data using **SQL Server to support L3 teams** with critical analysis and operational decision-making.
- Ensured **server data integrity and accessibility**, enabling accurate and efficient performance analysis.

Accomplishments:

- **Efficiency Gains:** Reduced ticket resolution time by **15% through process optimization and effective data handling**.
- **Data Accuracy:** Played a key role in enhancing data accuracy for L3 teams, ensuring smooth operations and high client satisfaction.

McKinsey Knowledge Centre – Data Analyst
September 2019 – September 2020

- Tracked and analyzed CRM data using **Salesforce and Excel, supporting CRM operations and optimizing data collection processes**.
- Developed **weekly, monthly and quarterly reports with advanced Excel functions, enabling data-driven decision-making**.
- Integrated third-party data into CRM systems, ensuring **data relevance and supporting client engagement**.
- Conducted research on active and dormant clients to **support CRM initiatives and identify re-engagement opportunities**.

Accomplishments:

- **Process Optimization:** Reduced data preparation time by **20% through improved reporting workflows**.
- **Data Insights:** Delivered actionable insights to support CRM enhancements and client re-engagement strategies.

Concentrix – Jr. Associate
July 2019 – September 2019

- Provided technical support to **North American** marketplace sellers, resolving live case queries for **US, Mexico, and Canada markets**.
- Delivered timely and high-quality customer service, addressing seller concerns and ensuring positive customer feedback.

Accomplishments:

- **Customer Satisfaction:** Achieved a **95% satisfaction rate** for query resolution, supporting seller experience improvement.
- **Operational Efficiency:** Effectively managed **high case volumes**, maintaining organized workflows for **fast issue resolution**.
