SUMMARY

Software Developer specializing in **web development**, with **2 years of experience** in **React, Angular, HTML, CSS, and JavaScript**. Currently contributing to **websites, e-commerce platforms, billing apps, and educational projects** at a **prestigious organization** for over a year. Previously worked as an **intern**, delivering tailored solutions to multiple clients. Passionate about crafting **seamless user interfaces** and collaborating on **innovative projects** in a **growth-driven environment**.

EXPERIENCE

Software Developer

Ira Technologies Private Ltd.

July 2024 - Present

- Worked on **10+ live projects** using **React.js, Angular, JavaScript, HTML, and CSS**, enhancing **user experience** and **functionality**.
- Integrated seamless APIs across multiple projects**, enhancing data synchronization and performance.
- Built a **project management tool** similar to **Jira**, focusing on **task tracking, project planning**, and team collaboration.
- Collaborated closely with designers and backend developers to convert **Figma prototypes** into **scalable, modular UI components**.
- Optimized **performance** by lazy loading components, **minimizing bundle size**, and implementing conditional rendering strategies.
- Contributed to company growth** by delivering high-quality frontend solutions that enhanced scalability and supported **10+ live projects**.

Frontend Developer Intern

Ira Technologies Private Ltd.

December 2022 - July 2024

- Participated in **daily standups** and **sprint planning** to coordinate with senior developers and meet project deadlines.
- Converted **Figma and design** mockups into **dynamic, component-driven** interfaces using **Angular** and **Tailwind CSS**.
- Responsive Design**: Ensured **100% mobile responsiveness** across all **25+ themes**, optimizing performance and accessibility using **HTML, CSS, and JavaScript**.

PROJECTS

Drafty - Project management application

- Designed the **To-Do** module with full **CRUD** operations for tasks assigned to project managers, drafters, and admins.
- Implemented Agile features supporting sprints and backlogs; led team role management and permissions.
- Integrated **Jitsi Meet API** to support live **video meetings** directly from the application.
- Independently developed the entire frontend from scratch using **React** and **Tailwind CSS**, ensuring **optimal performance, modularity**, and **responsiveness**.
- Used **Axios** for **REST API integration** to fetch and manage user tasks in real-time.
- Integrated third-party APIs and tools (Jitsi Meet, Axios, Chart.js, etc.) to enhance real-time communication, data visualization, and interactivity.

Tizo - A web application

- An e-commerce platform to shop products from different categories like **fashion, electronics, sports** etc..
- Used **Git** and **GitHub** for version control, feature branching, and collaborative **code reviews** in a team-based workflow.

PreTo3 - School management application

- Identified and **resolved UI and functionality bugs** in a school management platform built with **Angular** and **Tailwind CSS**, enhancing user experience, **performance**, and interface **reliability**.

SKILLS

Tools & APIs: Git, GitHub, REST APIs, Axios, Fetch, Vs Code

Languages & Technologies: React JS, Angular, HTML, CSS, JavaScript, Tailwind CSS, Bootstrap

Others: Basic C/C++, Data Structures

EDUCATION

Master of Computer Application (Pursuing)

AKTU•July 2024 - Present

Bachelors of Computer Application

CCS University•July 2021 - July 2024

Intermediate

UP Board•March 2020 - June 2021
