SKILLS

PROGRAMMING LANGUAGES

- C# • GOLANG • Python
- Javascript • C++

DATABASES

- PostgreSQL • MongoDB
- SQL Server • MySQL

DEV

- HTML • CSS • BOOTSTRAP
- ReactJS • NodeJS

TECH & FRAMEWORKS

- Kafka • Redis • Winforms
- .NET Core • ASP.NET
- RESTful APIs • CORE FTP
- Entity Framework

TOOLS

- VS Code • Visual Studio
- Postman • BitBucket • Git
- Jenkins • Ansible • Coverity
- Agile • Jira

SUMMARY

Results-oriented full-stack developer with 2 + years of experience in designing, developing, and maintaining web applications. Skilled in .Net MVC,.Net core,C# .Adept at translating user requirements into functional and scalable applications.

EXPERIENCE

SECURE METERS LIMITED

APPLICATION SOFTWARE DEVELOPMENT (EXECUTIVE -I)

Jan 2023 - Present | Udaipur , Rajasthan

- **AMISP North Bihar-Midnight Data Delivery SLA Optimization** -Improved midnight data delivery SLA from 60% to 98% within 24 hours by designing and implementing automated tracking for 1.5 million meter readings via Liberty Online 2.0 HES System. Enabled SLA compliance (99% in 72 hrs, 98% in 12 hrs) with real-time dashboards. Our Team Awarded STA for successful end-to-end implementation.
- **Liberty Online 2.0** - Contributed to the design and development of Liberty Online 2.0, a fully managed, end-to-end smart metering and data services solution. This head end secure system handles everything from meter readings to data delivery for approximately 1.8 million meters. Additionally, performed performance testing with a load of 1 million meters to ensure system scalability and reliability.
- **EGM Liberty 120** - Contributed to the Smart gas metering program with installations, decommissioning, tariff configuration, token resend, on-demand and scheduled readings, disconnection features, BLE-based self-reading via mobile app in No WAN areas, and data management through the Liberty Online Head end system, successfully delivering 1.5K fully functional meters.

PROJECTS

MY PORTFOLIO

- Link : [komalsharma.portfolio](#)
- Skills used : HTML, CSS, JS , BOOTSTRAP

REPORT SCHEDULER APPLICATION

- Skills Used : MVC.NET , C-Sharp , MS SQL Server , DevExpress Tool
- An automated interface that generates and emails reports on defined schedules, delivering updates to external customers and users while reducing manual effort and eliminating human error.

GMAIL CLONE

- Skills used : REACT ,FIREBASE , REDUX
- A Gmail Clone that you can sign in with your Google Account, compose a new email and send real time emails

ACHIEVEMENTS

- Received an offer from Tata Consultancy Services as a result of excelling in the TCS Codevita Coding Contest.
- Qualified for Smart India Hackathon: developed a Women Empowerment website as part of a team project.
