

SUMMARY

Frontend Developer with 2 years of experience creating responsive, fast, and user-friendly web applications. Skilled in modern technologies like React.js, Tailwind CSS, shadcn/ui, and React Query. Adept at building pixel-perfect, accessible interfaces for all devices, enhancing user experience through CSS animations, and web accessibility standards.Strong team player with a focus on writing clean, reusable code, collaborating closely with designers and backend teams, and continuously learning new tools to deliver scalable and high-performing solutions.

PROFESSIONAL EXPERIENCE

Associate Software EngineerApr '24 - Present
ReshieldBnegaluru

- Built and maintained web applications using React.js, Tailwind CSS, and shadcn/ui, delivering highly responsive and visually appealing user interfaces.
- Integrated and managed server data with React Query, achieving faster page loads and improving data handling efficiency.
- Developed mobile-first designs compatible with multiple devices and screen resolutions.
- Collaborated with UI/UX designers to translate Figma designs into fully functional, accessible frontend components.
- Used Git and GitHub for version control, contributing to daily code reviews, and agile sprint planning.
- Participated in agile sprint planning, daily standups, and peer code reviews, contributing to high-quality, maintainable codebases.
- Worked on version control using Git, collaborating through GitHub for pull requests and code reviews.

Graduate Engineer TraineeJan '22 - Nov '23
Acidaes Solution Private Limited(BUSINESSNEXT)Noida, U.P

- Collaborated with cross-functional teams to deliver scalable, maintainable solutions with a focus on modern best practices.
- Participated in agile sprint planning, daily standups, and peer code reviews, contributing to high-quality, maintainable codebases.
- Fetchd and managed server data using React Query to improve load times and caching strategies.
- Debug and troubleshoot frontend issues (layout problems, browser compatibility, performance
- Conducted code reviews, suggested improvements, and mentored junior developers in frontend practices.
- Designed and implemented advanced UI/UX features including CSS animations for a smoother user experience.

EDUCATION

BTECH - Computer Science EngineeringAug '18 - Aug '22
Galgotias UniversityNoida,U.P

- CGPA-7.2

PROJECT

- Access Review Page - Developed the Access Review page in React.Js with dynamic search, filtering, and data table components to streamline user access management. Implemented frontend validations to ensure data accuracy and enhance platform security. Collaborated with cross-functional teams to deliver a responsive and user experience.
- Created a Movie App - Developed a dynamic movie app using React that allows users to browse, search, and view details of movies.
- Created a Recipe Meister - Created a seamless and user-friendly recipe management system with full CRUD operations for recipe handling.
- Created a Food Survey Preference Form - Implemented form validation using both HTML5 and JavaScript, ensuring accurate and complete user input.
- Responsive Bloom Hub Website — Built a responsive website with a Bloom Hub effect, dynamic FAQ section, and login form using HTML, CSS, and JavaScript. Focused on mobile-first design and smooth user experience.
- FAQ Section - A fully validated login form to ensure secure and user-friendly authentication. Features include a collapsible FAQ section and a validated login form, built with HTML, CSS, and JavaScript.
