**Location** : Hyderabad, India  
**Connect** : [GitHub](#), [LinkedIn](#)

### PROFESSIONAL SUMMARY

**Full Stack Developer** with 1.5 year of experience in various domains such as:

- **Frontend Development:** Proficient in developing responsive user interfaces using HTML, CSS, JavaScript & Boot-Strap, and modern frameworks like React.js and Angular.
- Currently working as **Full Stack Developer** in CustQ Software Services.
- **Backend Development:** Experience in building robust backend systems using Node.js, Express.js, and working with databases like MySQL, MongoDB, and Django.
- **API Development & Integration:** Skilled in creating and integrating RESTful APIs to support web and mobile applications.
- **Development & Collaboration:** Skilled in using **Git** for version control and collaborating via **GitHub** and **FireBase**. Experienced in the **SDLC**, from requirements gathering and design to coding, testing, and deployment.
- **Problem-Solving & Communication:** Strong troubleshooting and debugging skills to optimize performance. Effective in communicating with **clients, stakeholders, and teams**, ensuring timely project delivery and quality results.

### SKILLS AND ABILITY

- Proficient in front-end technologies like HTML, CSS, JavaScript, BootStrap, and React-JS.
- Experience with back-end technologies such as Node.js, Express-JS, and Python.
- Knowledge of databases like MySQL, MongoDB, and Django.
- Familiar with RESTful APIs and API development
- Skilled in version control using Git ,Fire-Base and GitHub
- Mobile Applications penetration testing (Android,iOS)
- Strong problem-solving and debugging skills
- API penetration testing
- Familiar with responsive design and cross-browser compatibility

### WORK EXPERIENCE

**Company Name** : CustQ Software Services  
**Duration** : March -2024 till date  
**Designation** : FullStackDeveloper

### Work Summary:

- Developed, tested, and deployed full-stack web applications, using a range of technologies such as JavaScript, Boot-Strap, HTML, CSS, Node.js, React, and Python.
- Worked on both front-end and back-end technologies to build scalable, maintainable applications, ensuring responsiveness and cross-browser compatibility.
- Integrated third-party APIs and services into applications, improving functionality and user experience.
- Managed databases (SQL and MongoDB) and optimized queries for improved data retrieval and overall performance.
- Led efforts to improve UI/UX, ensuring that applications are user-friendly and intuitive.
- Continuously learned and adapted to emerging technologies, trends, and industry best practices in full-stack development.

**Company Name** : Spider-Tech

**Duration** : Oct 2023-Dec 2023

**Designation** : Developer Intern

### Work Summary:

- Developed and maintained responsive web applications using **HTML, CSS, and JavaScript**.
- Designed and optimized database queries using **SQL** for efficient data retrieval.
- Implemented backend logic and automation scripts using **Python** to streamline workflows.
- Collaborated with the development team to troubleshoot and debug code issues.
- Assisted in front-end design improvements for better user experience and accessibility.
- Worked with version control systems like **Git** to manage code repositories.

## EDUCATIONAL QUALIFICATIONS

- B-Tech ( Computer Science & Communication) from LITAM College, Guntur with 7.53 CGPA of aggregate in the year of 2019-2023.
- Intermediate from SVKP, Jr.College in Sattenapalli ,Guntur with 9.63 CGPA of aggregate in the year of 2017-2019.
- SSC from SRBK, High School, Sattenapalli ,Guntur with 9 GPA of aggregate in the year 2017

## PROJECTS

### ✓ Angular web application: Aranya Resorts

**Link:** <https://aranya-resorts.web.app/>

Designed and developed the Aranya Resorts website utilizing Bootstrap and HTML technologies, offering a seamless online experience for users to explore resort facilities, event venues, and wedding services. Executed a user-friendly interface that elegantly showcases resort amenities and efficiently communicates event planning services. the interview process. which is developed with MEAN stack in the internship .

✓ **Responsive web application: Ayurvedic Products Website**

**Link:** <https://ayurvedic-skincare.web.app/>

Angular dynamic features empower you to engage with our content effortlessly, from informative product descriptions to interactive elements that enhance your shopping experience.

## CERTIFICATIONS

- Certified as a **MEAN- Full Stack Developer** at **Dr. Reddy's Foundation**, demonstrating expertise in both frontend and backend technologies, showcasing a commitment to excellence in end-to-end web application development.
- CodeSoft's AI Intern Certification offers hands-on training in machine learning, neural networks, and natural language processing, providing participants with practical AI development skills.
