## Professional Summary

Full Stack Developer with 2 years of experience building responsive, scalable web apps using React.js, Node.js, and TypeScript. Skilled in Agile development, clean code practices, and creating smooth user experiences across the stack.

## Technical Skills

**Programming Languages:** JavaScript, Typescript, NoSQL, HTML/CSS

**Frameworks/Technologies:** React.js, Next.js, Node.js, Express.js

**Databases:** MongoDB, MySQL

**Testing:** Jest, Vitest, React Testing Library

**Tools:** Git, GitHub, AWS

**Others:** Headless CMS, Agile/Scrum

## Work Experiences

### TechNeutron Technology Solutions

Jun 2023 – Present

#### React Full Stack Developer

Pune, India

- **Successfully** deliver high-priority tickets, ensuring the timely and efficient resolution of complex technical issues.
- **Worked** with global teams to deliver features on time by actively participating in sprint planning and standups.
- **Troubleshoot and debugged issues** to ensure seamless application functionality and a smooth user experience.
- **Improved code quality standards** through regular code reviews and adherence to best practices, resulting in a more maintainable codebase and reduced long-term technical debt.
- **Boosted application performance** by **optimizing network requests and API calls**, minimizing unnecessary fetches and ensuring efficient data handling, which led to faster load times and smoother user interactions.
- **Built a reusable widget in a Headless CMS** and integrated it into the React application, enabling dynamic content updates without developer involvement and significantly improving content management efficiency.
- Collaborated with **cross-functional onshore and offshore teams** to **develop, and deploy new features**, contributing to **faster delivery** by actively participating in **agile ceremonies** such as **sprint planning, grooming sessions**, and **daily stand-ups**—improving coordination and enabling the team to quickly adapt to **changing client requirements** and **tight deadlines**.
- **Implemented unit tests for key React components** using **Jest** and **React Testing Library**, ensuring functionality behaved as expected.

### Prepbytes

Dec 2022 – May 2023

#### Full Stack Developer(MERN) Intern

Gurugram, Remote

- Completed a hands-on internship that strengthened my understanding of **JavaScript fundamentals**, including **closures, execution contexts**, and asynchronous programming.
- Worked on multiple projects, applying concepts in **React, Node.js, Express**, and **MongoDB**, which helped solidify my full-stack development skills.
- Gained practical experience in building full-stack applications, enhancing both front-end and back-end development proficiency

## Projects

---

**E-commerce Platform** / *TechNeutron Technology Solutions*

**2024 - Present**

**Project Domain:** Retail & Multivendor E-commerce , contributing to new feature development, feature migration, bug fixing, issue resolution, and actively participating in **war room** sessions to ensure timely delivery and application stability

**Key Highlights:**

- Worked within Agile methodologies, contributing to sprint-based development cycles and collaborating with the team to deliver features aligned with client requirements.
- Engaged with client requirements, ensuring alignment of features with business objectives.
- Developed responsive and interactive user interfaces using React, ensuring a seamless user experience.

**Tool & Technologies:** React, Redux, Typescript,Headless CMS

## Education

---

**Bachelor in Computer Application– BCA**

**Jun 2019 – Nov 2022**

*Dr. Ram Manohar Lohiya Avadh University, Ayodhya*

*Ayodhya, UP*
