SUMMARY

Dynamic and results-oriented Software Engineer with over 3+ years of experience in Front-End and Full Stack Development. Proficient in designing and implementing scalable web applications using JavaScript, ReactJS, and Node.js. Demonstrated expertise in both service and product industries, with a track record of delivering high-impact solutions that enhance user experience and streamline backend services. Seeking roles where I can contribute to impactful projects in Front-End and Full Stack Development.

WORK EXPERIENCE

LOWE'S Services India Pvt. Ltd, Bengaluru, India

Aug 2022 – present

Software Engineer

Tech Stack: JavaScript, TypeScript, ReactJS, Node.js, Kafka, Backyard CSS, Postman, Figma, Jenkins, Spinnaker, Git, Rest API, Jira, Bitbucket, Selenium

- Led the development of **Bulk Updates** in Lowe's internal CMS, enabling efficient mass content changes across the site.
- Designed and implemented **staggered delivery** options for PRO users, boosting scheduling flexibility and customer satisfaction by 15%.
- Investigated and resolved a production issue involving Kafka-based event streaming, enhancing the reliability of real-time updates.
- Revamped Lowe's website UI using ReactJS & TypeScript, reducing page load time by 30% and increasing engagement by 25%.
- Developed backend APIs using Node.js, optimizing data flow and improving **server response** by 40%.
- Built Micro Frontends (**MFE**) and Backend for Frontend (**BFF**) services for the Promo Simplification initiative.
- Created key **promotional features**: *Loyalty Points, Buy More Save More, Buy X Get Y Free*.
- Collaborated with UX via Figma and implemented **analytics** tagging using Gauge.
- Maintained CI/CD pipelines using Jenkins, Spinnaker, Bitbucket, and Jira for reliable **software releases**.

MAQ Software, Noida, India

February 2022 – July 2022

Software Engineer

Tech Stack: JavaScript, TypeScript, Power BI, Data Visualization, PostgreSQL, HTML, CSS, Azure DevOps

- Developed frontend for Microsoft's analytics dashboard using JavaScript and TypeScript.
- Improved Power BI visual load times and SQL performance, speeding up report generation by 30%.
- Enhanced user experience and dashboard usability through clean and dynamic visualizations.

EDUCATION

KIET Group of Institutions, Ghaziabad, India

CGPA: 8.6

2018 - 2022

Bachelor of Technology in Information Technology

PERSONAL PROJECTS

ToDo-Kanban Board - [GitHub](#) , [Try It](#) - Developed a task management platform using **ReactJS** and Netlify, featuring drag-and-drop functionality for seamless task tracking.

Theatre Seat Reservation - [GitHub](#) , [Try It](#) - Created a seat reservation system for theaters using **JavaScript**, providing an intuitive booking experience.

Calorie Fusion Frontend Website - [GitHub](#) , [Try It](#) - Built a health and diet platform using **ReactJS** and Recipe **APIs**, offering personalized diet recommendations with optimized caching strategies.

SKILLS

Programming Languages: JavaScript, TypeScript, Python, HTML, CSS, C/C++

Frameworks & Libraries: ReactJS, Node.js, React Native, Kafka

Databases: SQL, MySQL, PostgreSQL, RDBMS

Tools & Platforms: REST APIs, Figma, Git, Postman, Power BI, Visual Studio, Adobe XD, GitHub, Azure DevOps

Testing & CI/CD: Selenium, Jenkins, Spinnaker, Jest

Concepts: Data Structures and Algorithms (DSA), Database Management System (DBMS), Object-Oriented Programming (OOP), Test-Driven Development (TDD), Agile Methodologies, Continuous Integration/Continuous Deployment (CI/CD)

ACHIEVEMENTS

- Solved 500+ Questions on [Leetcode](#) , 5 Star Rating in Problem-Solving on [Hackerrank](#)
- Achieved 1st position in the Technical Quiz of INNOTECH- 2019
- Certified in [Namaste React](#) and Coursera's "Frontend Development with React".
