WORK EXPERIENCE

Software Developer

Lovely Professional University

12/2023 - Present

Jalandhar

Angular, Nextjs ,Redux,MUI,Angular Material, Bootstrap, TypeScript, Tailwind CSS, Web API, MVC, SQL Server, C#.NET, and ASP.NET.

Software Engineer

Turnpikeanalyst

08/2023 - 12/2023

Bangalore

Java, Oracle Sql

Software Engineer

Emicon Advisory Services llp

03/2023 - 07/2023

Mohali,Punjab

Java,Oracle Sql

Frontend Web Developer

Epam

01/2022 - 03/2022

EDUCATION

B.Tech(computer science and engineering)

Lovely Professional University

2019 - 2023

Jalandhar, Punjab 7.19cpga

Intermediate

Gyan Bharti Residential Complex

2016 - 2018

Bodhgaya ,Bihar 82%

Matriculation

Manav Bharti National School

2015 - 2016

Gaya ,Bihar 10 cgpa

SKILLS

Angular

Angular Material

MUI

Nextjs

Typescript

Redux

Bootstrap

Tailwind

Javascript

html

css

ASP.NET

Web API

MVC

Sql Server

Java

c++

oracle sql

PROJECTS

Student UMS (University Management System)

- Technology Stack : Built with Next.js , Redux , and Material-UI (MUI) for modern, responsive, and state-managed web applications.
- Communicates with an external .NET Web API by sending and receive encrypted parameters and response
- Implements JWT for token-based authentication and NextAuth for seamless and secure login workflows

LMS (Learning Management System)

- Learning Management System platform built using Angular, Tailwind, Angular Material.
- Developed and implements a comprehensive Learning Management System (LMS) to enhance educational and training experiences.
- Designed and customized the LMS to cater to the specific needs of the organization, optimizing the delivery online courses, tracking progress, and improving user engagement.

Placement Dashboard

- Technologies Used : Angular, Angular Material, Bootstrap, CSS, Html TypeScript
- Developed a comprehensive Placement Dashboard to manage and display placement-related data for students and companies.
- Angular was used to create a dynamic and interactive front-end, ensuring smooth user experiences and data management.
- Implemented Bootstrap for responsive design, providing a clean and user-friendly interface across various devices.
- Leveraged TypeScript to ensure type safety and maintainable code, improving the reliability and scalability of the application.

Journal Book

- Technologies Used : C#.NET, Angular, ASP.NET Web API, SQL Server
- Building web based application for managing journals, research, and books published by researchers
- Implemented Angular for a responsive, user-friendly front-end interface.
- Designed and built RESTful APIs using ASP.NET Web API with C#.NET for handling publish journal Data.
- Utilized SQL Server for efficient data storage, retrieval, and management of course information.
