WORK EXPERIENCE

Tranzita Systems, Lucknow | SDE-1

October 2023 - April 2025

Key responsibilities:

- Worked on the frontend development for P&G projects like Truck Planning, Truck Forecasting, and Debits Tools, focusing on building clean, user-friendly interfaces and improving user experience by 35%.
- Led the end-to-end development of the Centum Dashboard Web App using Angular, Node.js, and Firebase, boosting app performance by 40% and delivering new features based on evolving project needs.
- Designed and built the Centum Website with HTML, CSS, and JavaScript, achieving 100% mobile responsiveness and enhancing cross-device usability.

Chalbo India Pvt Ltd | Frontend Developer

May 2022 - Aug 2022

Key responsibilities:

- Implemented responsive design for smooth user experience on all devices.
- Improved designs based on user feedback for better satisfaction.

PROJECTS

Podcast Builder

- Created a podcast hosting platform using React JS, Node JS, Express JS and Mongo DB with authentication and efficient CRUD operations.

3D Modal Visualizer

- Built a 3D Model Visualizer using ReactJS, NodeJS, MongoDB, ExpressJS, and ThreeJS, enabling model rendering without external software. Integrated authentication, user management, and CRUD operations for enhanced functionality.

Blog Website

- Created an attractive React blog website with user authentication and easy post management. Used the MERN stack for smooth handling of blog content, making the user experience better.
