EXPERIENCE

● 2023 - 2025

Digi Triv Technologies and DigiMatte Solutions

MERN Stack Developer, January 2023 to February 2025, Ahmedabad

Developed interactive dashboards and dynamic web applications using React.js and Redux, seamlessly integrating APIs for real-time data handling, and built robust backend APIs with Node.js and Express.js to ensure efficient performance and scalability. Maintained front-end web applications to ensure a seamless user experience. Implemented over 50 UI components using React. Consistently wrote well-structured code in React, JavaScript, Bootstrap, HTML, CSS, Sass/Less, and created responsive designs.

● 2025 - Present

JPLoft

MERN Stack Developer, Jaipur, Rajasthan

Developed a full-stack doctor-patient appointment booking system with an integrated admin panel. Enabled patients to book appointments with doctors based on their specific health conditions. Engineered dynamic UI components (50+) using Next.js and Redux for a responsive and user-centric experience. Built secure and scalable RESTful APIs with Node.js and Express.js for real-time data handling. Designed and implemented role-based access controls and interactive dashboards for administrators. Ensured mobile responsiveness with Bootstrap and SCSS, and maintained clean, modular code with consistent use of best practices in JavaScript, HTML, and CSS.
