Consultancy Experience (Nov. 2024 – Present)

- Assisting clients in sourcing and developing new business ventures both locally and internationally, particularly in the Mineral and FMCG sectors.
- Expertise in a wide range of industrial minerals including:
 - White Limestone, White Dolomite, White Limestone Powder, Grey Limestone
 - Marble Blocks (White, Green, and Coloured)
 - Ball Clay, Wollastonite, Quartz, Silica Sand
 - Cristobalite Powder and Grits (sourcing and trading)
- Involved in the development of **Bio Quartz**.
- Currently exploring Talc sourcing opportunities to meet the requirements of new clients across various industries.

Ambaji Clients: Supporting clients in maintaining and improving **quality control standards**, especially for White Limestone.

- Conducting comprehensive **market research** and analysis of global trade trends to identify **export/import opportunities** for various minerals.

OMS Group:

- Delivered strategic operational planning to revitalize a five-year loss-making marble project, restoring profitability through targeted interventions.
- Conducted a comprehensive survey of the marble hill and performed detailed core-log analyses to understand subsurface geology.
- Identified and mapped high-quality marble zones for future block production, creating a phased development and extraction roadmap.
- Developed byproduct-utilization strategies to maximize resource efficiency and generate incremental revenue streams.

Delhi Client: Guiding the setup of a Lime product plant, providing expertise on plant design, operational processes, and resource optimization to ensure efficient production and compliance with industry standards.

Director

Dec. 2021 – Oct. 2024

Mynores Sdn. Bhd., Ipoh, Perak, Malaysia (Group Company of Wolkem India Ltd.)

Key Responsibilities and Achievements:

- Sourced high-quality **White Limestone Lumps and Chips** from Malaysia to meet the quality and quantity requirements of Group companies.
- Procured **Calcium Carbonate Powder (GCC and CC)** based on specific demand from Group companies.
- Ensured full **regulatory compliance**, including submission of reports to relevant government departments and maintaining all legal permissions.
- Secured **Export Permits** to facilitate international business operations in line with Group

needs.

- Maintained detailed **daily and monthly procurement data**, generated regular operational reports for the corporate office.
- Developed procurement strategies and documentation aligned with market trends, competitors, and vendor dynamics.
- Managed all documentation including catalogues, brochures, delivery orders, and supplier records using digital tools.
- Maintained an operational **stockyard at Lumut Port** for storage and handling of limestone materials.
- Built and sustained strong **supplier and interdepartmental relationships** to ensure smooth execution of project demands.
- Supervised department operations, resolved contractual issues, and worked closely with internal teams for effective outcomes.
- Negotiated contracts with suppliers, developed procurement policies, and evaluated vendor performance.
- Conducted **product quality assessments** and implemented corrective steps to maintain standards.
- Oversaw **product delivery schedules**, transportation, storage, and after-sales service.
- Monitored global trends and ensured sufficient inventory to meet corporate export timelines.
- Coordinated with **international logistics agents and supply chain brokers** to manage global shipments.
- Successfully proposed and acquired **high-grade limestone mines**, securing **50 years of raw material supply** for Group companies—considered one of the top strategic achievements.

Director

Dec. 2023 – Oct. 2024

Allstone Industries Sdn. Bhd., Ipoh, Perak, Malaysia (Group Company of Mynores Sdn Bhd)

Key Responsibilities:

- Acted as the primary liaison with **central and state government departments** to obtain all necessary licenses and permits for quarry operations.
- Led **sales and marketing efforts** for quarry products across domestic and international markets.
- Managed **industrial relations**, ensuring smooth communication and compliance with local labor laws and practices.
- Successfully **negotiated and finalized agreements** for the operation and development of limestone quarry sites.
- Supervised **crushing plant operations**, ensuring production of various grades and sizes of limestone to meet market demands.
- Oversaw the **recruitment and onboarding of staff**, ensuring the right talent was hired for operational and administrative functions.

Key Business Areas Handled – Mynores and Allstone

- **New Ventures & Quarry Assessment:** *Identifying and evaluating new mining and mineral business opportunities.*
- **Business Development:** *Driving growth initiatives, client acquisition, and strategic partnerships.*
- **Government Liaison:** *Coordinating with various government departments to ensure regulatory compliance and approvals.*

- ***Sourcing & Supplier Relationship Management:*** Managing supplier networks, procurement strategies, and long-term vendor relationships.
- ***Logistics & Supply Chain Management:*** Overseeing the end-to-end movement of materials, ensuring timely and cost-effective delivery.
- ***Financial Performance & Budgeting:*** Monitoring budgets, controlling costs, and improving overall financial health of operations.
- ***Market Analysis & Strategy Development:*** Conducting market research to design and implement effective business strategies.
- ***Mining Operations:***
 - *Drilling & Blasting*
 - *Haulage & Crushing*
 - *Sorting & Final Product Loading*
 - *Waste Management, Safety & Security Oversight*
- ***Transportation & Logistics:*** Managing movement of goods from mine to customer or port, ensuring efficiency and compliance.

International Procurement Officer

19th Nov. 2019 – Nov. 2021

Megah Transport Sdn. Bhd., Ipoh, Perak, Malaysia (On Lien Basis for Wolkem Malaysia Sdn Bhd – Group Company of Wolkem India Ltd)

Key Responsibilities:

- Maintained daily procurement data and tracked all procurement plans aligned with company goals.
- Coordinated with donor companies and suppliers to ensure timely approval and issuance of documentation.
- Developed procurement strategies, competitive assessments, and documentation in line with current market trends.
- Managed supplier records, catalogues, brochures, and maintained key data electronically for efficiency.
- Participated in bidding procedures, evaluated bids, and ensured legal compliance through structured reporting.
- Managed vendor databases, applied quality measurement tools, and facilitated product implementation.
- Built strong relationships with suppliers and internal departments to align product delivery with project requirements.
- Addressed and resolved contractual issues with relevant stakeholders and departments.
- Drafted and negotiated contracts, ensuring adherence to all procurement policies and guidelines.
- Conducted product assessments and quality checks, and implemented necessary improvements in the procurement process.
- Scheduled deliveries and oversaw logistics, including after-sales service, storage, and transportation.
- Generated and submitted regular procurement and performance reports to the

corporate office.

- Stayed updated on market trends and maintained procurement pipelines per corporate inventory standards.
- Coordinated with international supply chain partners for global procurement efficiency.
- Played a key role in **sourcing, quality control, and business development** for key industrial minerals including:
 - White Limestone (Lumps & Chips)
 - Dolomite
 - Kaolin
 - Ball Clay
 - Grey LimestoneFor use in the **paper, paint, polymer, and steel industries**.

Chief Manager

April 2018 – 18th Nov. 2019

Wolkem India Limited, Udaipur, Rajasthan, India

Key Responsibilities:

- Led **sourcing, quality control, and business development** for industrial minerals including White Limestone (lumps/chips), Dolomite, Kaolin, Ball Clay, and Grey Limestone for use in **paper, paint, polymer, and steel industries**.
- Managed procurement and **import of Calcium Carbonate powder** (coated and uncoated) from multiple international sources.
- Ensured quality compliance of imported materials through systematic implementation and monitoring.
- Identified and developed **new sourcing channels** for White Limestone from international markets.
- Oversaw **mine operations**, including blasting, material breakage, grade formation, and dispatch logistics.
- Directed business development and sourcing of **Wollastonite lumps and powder**.
- Spearheaded the **identification of new ventures**, including greenfield mining opportunities and acquisition of operating quarries.
- Evaluated new locations for setting up **GCC (Ground Calcium Carbonate) plants**.
- Conducted **liaison with government departments**, including the Indian Bureau of Mines and the Department of Mines & Geology, ensuring compliance and permits.
- Supported **mineral R&D activities**, including XRD services for mineral identification and interpretation of analytical data.
- Designed **long-term business and sourcing plans** for minerals across countries such as China, Vietnam, Malaysia, Turkey, Iran, Egypt, and regions in Africa.
- Arranged and negotiated mineral transportation, optimizing costs and delivery schedules.

Manager

Feb. 2017 – March 2018

Wolkem India Limited, Udaipur, Rajasthan, India

Key Responsibilities:

- Managed **sourcing and business development** for industrial minerals such as **White Limestone lumps** and **Dolomite**, ensuring both quality and supply continuity.

- Handled **international procurement** of **Calcium Carbonate powder** (coated and uncoated grades), maintaining compliance with industry-specific quality standards.
- Conducted **quality control** and monitoring of imported mineral materials to meet application requirements across key industries.
- Identified and developed **new international sources** for White Limestone to strengthen supply chain capabilities.
- Oversaw **mine operations**, including blasting, material extraction, grading, and logistics for dispatch.
- Directed **business development and sourcing** activities for **Wollastonite lumps and powder**.
- Led **geological surveys and sampling** to identify new greenfield mining opportunities and assess existing quarries.
- Identified strategic locations for setting up **Ground Calcium Carbonate (GCC) plants** to support downstream processing.
- Conducted **R&D initiatives** focused on **Wollastonite quality enhancement**, including beneficiation techniques and utilization of mineral waste.
- Liaised with key **government authorities** including the **Indian Bureau of Mines** and **Department of Mines & Geology** for permits, compliance, and reporting.
- Explored and evaluated **business potential for Garnet mineral** in industrial applications.

General Director

Sept. 2014 – Jan. 2017

Wolkem Stones Limited / Wolkem Vietnam Limited / Lam Hong Trade and Transport Service Limited, Vietnam (Group Company of Wolkem India Ltd)

Key Responsibilities:

- Held **P&L responsibility** for three group companies in Vietnam, ensuring operational efficiency and financial performance.
- Oversaw **financial management**, including accounts, costing, cash flow, budgeting, and management information systems (MIS) related to P&L and balance sheets.
- Led **statutory compliance** across all legal and regulatory frameworks relevant to company operations in Vietnam.
- Directed **administration and general management**, including human resources and functional oversight of unit heads.
- Implemented and ensured adherence to **health and safety standards** across sites.
- Managed **general procurement**, sourcing, and inventory strategies to support both domestic operations and export commitments.
- Developed and led **domestic and export trade** of minerals including **limestone lumps, chips, micronized calcite, and marble products** (blocks, slabs, tiles).
- Supervised **production and quality control** at Wolkem Stones Limited and Lam Hong Trade for consistent product standards.
- Managed **logistics and transportation**, optimizing delivery networks and export supply chains.
- Responsible for **procurement of marble blocks** for internal processing and **limestone raw materials** for group companies across regions.
- Oversaw **guesthouse and kitchen operations**, ensuring employee welfare and hospitality standards for visitors.

Manager

August 2013 – August 2014

Speed International Sdn. Bhd., Ipoh, Malaysia

Key Responsibilities:

- Explored **joint venture** and **100% investment opportunities** for foreign and local investors in the minerals and related sectors.
- Managed **trading and marketing of calcium carbonate powder**, minerals, chemicals, and agricultural products across domestic and international markets.
- Led **sourcing operations for wood and timber** to meet requirements of overseas clients.
- Handled **export liaison**, securing necessary **export permits for limestone** by coordinating with relevant Malaysian government departments.
- Negotiated with and coordinated **transporters, shipping lines, and freight forwarders** to ensure smooth logistics for mineral exports.
- Initiated and developed the **marble handicraft business**, including product development and market outreach.

Director

November 2012 – April 2013

T L C Ghana Limited – Ghana, Africa

Key Responsibilities:

- Spearheaded **business setup and development** in Ghana, particularly in the **rice trade** (5% broken, 25% broken, and 100% broken long grain white rice).
- Managed **import and export operations**, including customs clearance, port handling, and regulatory compliance.
- Coordinated with multiple **government departments**, including the Ghana Customs, Port Authority, GIPC, Registration Office, Immigration Department, Indian High Commission, Ministries of Ghana, and the Mining Commission.
- Oversaw **banking and financial operations** related to trade and corporate management.
- Directed **marketing and sourcing for minerals, chemicals, and fertilizers**.
- Supervised **transportation and logistics**, from **port to bonded warehouse**, and **warehouse to market** distribution.

Deputy Manager – Operations (Malaysia)

January 2009 – September 2012

Wolkem India Limited

Key Responsibilities:

- Procured limestone lumps for Wolkem and other group companies, ensuring adherence to quality and quantity targets.
- Negotiated with suppliers and managed mineral quality control in line with industry requirements and specifications.
- Supervised and maintained a team for regular mineral inspections, mine planning, and resource optimization.
- Identified new venture opportunities by exploring Greenfield and operating quarry areas across Malaysia.
- Handled logistics and shipping operations, including coordination with port

authorities for vessel loading and cargo export to India.

- Conducted liaison with Malaysian government authorities for regulatory compliance and permissions.
- Led marketing efforts for minerals and contributed to strategic R&D for expanding product outreach.
- Managed transportation and end-to-end logistics for seamless supply chain operations.

Asst. Manager - Technical (Vietnam)

July 2006 – Dec. 2009

Wolkem India Limited

- **Procured limestone lumps** for Wolkem and other group companies, ensuring strict adherence to quality specifications and quantity targets, while optimizing cost-efficiency in the procurement process.
- **Marketed minerals** such as Calcite and Limestone, identifying and targeting new market opportunities, building strong client relationships, and driving revenue growth through effective sales strategies and product positioning.
- **Conducted market research and development** for various minerals and chemicals, including Yellow Phosphorus and Rock Phosphate, identifying new business opportunities, analyzing market trends, and formulating strategies to expand market presence and customer base.
- **Coordinated follow-ups** with company contractors, JV partners, and suppliers in Vietnam to ensure smooth operations, timely deliveries, and resolution of any issues. Conducted **liaison work with government authorities**, ensuring compliance with regulations and facilitating necessary approvals and permits.
- **Conducted geological surveys** for various minerals in Vietnam, analyzing mineral deposits, evaluating resource potential, and providing data to inform exploration and extraction strategies, supporting informed decision-making for future projects.
- **Established a 100% Foreign Direct Investment (FDI)** entity under the name **Wolkem Vietnam Ltd.**, navigating regulatory requirements, securing necessary approvals, and facilitating a smooth setup to support the company's operations and expansion in Vietnam.

Geologist

July 2004 – June 2006

Wolkem India Limited – Udaipur, Rajasthan

Geologist at Wolkem India Limited (world's largest producer of Wollastonite and largest producer of Calcite in India), with extensive experience in mining exploration, mine planning, and scheduling. Managed drilling operations, material sourcing, and quality control processes, ensuring optimal mineral extraction and production standards. Actively involved in the **marketing of minerals**, contributing to business growth and strategic market positioning.

Conducted geological mapping and surveys for various industrial minerals across key regions in India, including Rajasthan, Gujarat, Madhya Pradesh, and Andhra Pradesh. Evaluated mineral deposits, identified new exploration opportunities, and provided critical data for mining operations and resource management.

Professional Training & Certifications:

- Certificate in Mineral Exploration and Ground Water Consultancy from the EDC Programme.
- Certificate in Environmental Monitoring and Analysis for Consultancy Services from the EDC Programme.
- Certificate of Participation in the National Level Seminar on Techno Mine, organized by C.T.A.E (M.P.U.A.T.), 2000-2001.

Countries experience: India, Vietnam, Malaysia, Africa, China, Thailand

Product experience:

- Minerals: Extensive experience with a range of minerals including Calcium Carbonate, Limestone (White and Grey), Dolomite (White and Grey), Talc, Ball Clay, Silica Sand, River Sand, Wollastonite, Garnet, Quartz, Cristobalite, and Marble (White, Wooden, Coloured – Blocks, Slabs, Tiles, Handicraft, Furniture).
- Food: Knowledge in sourcing and handling Rice (Broken – 25% and 5%).
- Chemicals: Proficient in the handling and marketing of Yellow Phosphorus.

Educational Background:

S. No.	Examination	Board/University	Year of Passing
1.	MBA	The Global Open University, India	2012
2.	M.Sc. Tech (Applied Geology)	MLSU, Udaipur, Rajasthan, India	2004
3.	M.Sc. (Geology)	MLSU, Udaipur, Rajasthan, India	2002
4.	B.Sc. (Add. Geology)	MLSU, Udaipur, Rajasthan, India	2000
5.	B.Sc. (Science)	Mohan Lal Sukhadia University, Udaipur, Rajasthan, India	1999
