OBJECTIVE

Dedicated PHP Developer with a strong focus on the Laravel framework, offering more than 4 years of hands-on experience in designing, developing, and maintaining robust web applications. Proficient in PHP, MySQL, and modern web technologies. Adept at translating complex business requirements into efficient and scalable code solutions. Proven track record of delivering high-quality projects on time and within budget. A passionate problem solver committed to staying updated with the latest trends in web development. Additionally, have worked on multiple projects with the Indian government.

PROFESSIONAL EXPERIENCE

Arete Consultant Pvt Ltd.

Sep 2022 - Present

Software Developer

I developed code according to client requirements, focusing on bug fixing and product maintenance. I coordinated with other teams working on the same projects, ensuring cohesive development efforts. I integrated MySQL databases with web applications and optimized queries for better performance. Additionally, I worked closely with front-end developers to ensure seamless integration of user interfaces and back-end functionality. Collaborating with the QA team, I identified and resolved bugs and issues promptly. I stayed updated with the latest PHP and web development trends and technologies to continually improve my skills and keep projects current.

Bridge Technosoft

Apr 2021 - Aug 2022

PHP Developer

I specialize in website designing, building, and maintaining. My work involves creating websites and user interfaces using standard HTML/CSS practices while incorporating data from back-end databases and services. Additionally, I develop back-end portals with optimized databases to ensure efficient performance and seamless functionality.

Web Ninja Solutions

Jun 2022 - Jul 2022

PHP Developer - Freelancer

I develop user interfaces using HTML and CSS, integrating them with back-end databases and services for seamless functionality. I also focus on optimizing database queries and developing efficient back-end portals.
