PROFESSIONAL EXPERIENCE

Appwelt Pvt Ltd 

Jr Software Developer

05/2023 – Present | Pune, India

Project 1: ERP Collection Application

Technologies Used: Python, Django (Backend), React.js, HTML, CSS, JavaScript (Frontend)

Team Size: 7

- 1) Developed a **scalable ERP** web application using **React.js** for the frontend and **Python, Django** for the backend.
- 2) Implemented **JWT (JSON Web Tokens)** for secure **user authentication and authorization**.
- 3) Designed a feature that allows users to select specific routes, displaying only the shops associated with the selected route for better operational efficiency.
- 4) Built a dedicated collection module for managing payment collections from shops, including transaction tracking and reporting.
- 5) Used responsive UI design principles with **HTML, CSS,Bootstrap** and **JavaScript**, ensuring compatibility across devices and browsers.
- 6)Applied best practices in **RESTful API** development, enhancing maintainability and performance.

Project 2: Gold Booking Application

Technologies Used: Python, Django, React.js, Bootstrap,HTML, CSS, JavaScript

Team Size: 9

- 1) Built a gold booking platform with features like booking, deposits, loans, selling, and installments.
- 2) Developed secure **Django REST APIs** with **JWT authentication** and real-time tracking dashboard.
- 3) Created a responsive frontend using **React.js** and **Bootstrap** with **PWA** support.
- 4) Enabled users to track transactions, view schemes, and perform online bookings and deposits.

Project 3: Admin Management Portal

Technologies Used: Python, Django, Bootstrap, HTML, CSS, JavaScript

Team Size: 7

- 1) Developed a **Django-based** Admin Management Portal using **Python** and **Bootstrap** to handle full CRUD operations for office staff management.
- 2) Implemented **Role-based access control (RBAC)** using **Django's** authentication system to provide dynamic access and feature control based on user roles.
- 3) Created modules to manage gold bookings, deposits, loans, gold selling, and installment records from the internal staff side.
- 4) Integrated real-time database interaction, responsive UI with Bootstrap, and dynamic reporting using **JavaScript** and **Django** templates for enhanced operational efficiency.

Education4ol
