EXPERIENCE

Software Developer

Aug 2024 – Mar 2025

Initializ Labs

Gurugram, Haryana

- Developed and optimized scalable, high-performance UI's using **React.js**, **Next.js**, **TypeScript**, and **Angular**, enhancing user experience and efficiency.
- Integrated AI-driven solutions into frontend applications by connecting **AI models** with FastAPI, improving responsiveness and performance.
- Optimized frontend performance and state management, enhanced **API integrations**, and adhered to **Agile methodologies** for efficient development and delivery.

Software Development Engineer Intern (SDE Intern)

Aug 2023 – Aug 2024

Initializ Labs

Kanpur, UP

- Built high-performance UIs with **Next.js** and **React**, enhancing UX and cutting load times by 30%.
- Enhanced **state management** with **Redux Toolkit**, reducing unnecessary renders.
- Collaborated with the DevOps team to deploy Spring Boot applications in **Kubernetes pods** and actively contributed to **API development** for improved scalability and performance.

EDUCATION

Dr. Ambedkar Institute of Technology for Divyangjan

Kanpur, UP

Bachelor of Technology, Computer Science

Sept. 2020 — June 2024

- CGPA: 7.59

PROJECTS

AETOS – Indian Army Project | *NextJs, TypeScript, Material UI, Python*

Dec 2024

- Built and optimized **Next UI** for real-time **sensor feed visualization**.
- Integrated **Leaflet-GIS maps** to track and display objects dynamically across different terrains.
- Implemented **WebSocket-based SSE** for real-time **data updates**.

Initializ Console | *NextJs, TypeScript, Tailwind CSS, Golang, Jest, Cypress*

Nov. 2024

- Developed **Initializ AI Console** frontend from scratch using **Next**, **Material UI**, and reusable components.
- Implemented **RBAC-based access control** and integrated **dynamic data visualization charts**.
- Ensured performance and reliability by writing tests with **Jest** and **Cypress**.

SKILLS

Languages : C, Java, JavaScript, TypeScript, Python, SpringBoot

Tools/Technologies : Git/GitHub, Linux, NextJs, ReactJs, Angular, PostgreSQL, Docker

Subjects : Data Structures and Algorithms (DSA), Database, Operating Systems, OOP's

ACHIEVEMENTS AND ACTIVITIES

- **Certified AWS Solution Architect**.(2023)
- **Runner-up** in Zonal Level Badminton Championship organized by K.D.M.A., Kanpur (2023).
- **Second Runner-up** in VOSAAP International Hackathon on Assistive Technology (2022).
- **Winner** of Smart India Hackathon (SIH) Software Edition (2022).
