## Professional Summary

Detail-oriented and proactive Software Developer with over 2.5 years of experience in CRM systems, business model development, and retail execution optimization. Skilled in configuring StayinFront platforms, creating dynamic dashboards, customizing UI, optimizing backend logic, and enhancing database performance. Proven ability to collaborate with cross-functional teams, drive business-specific solutions, and deliver scalable applications using VBScript, JavaScript, C#, and SQL in Agile environments.

## Professional Experience

### Software Developer (Business Model Developer)

StayinFront Pvt Ltd – Gandhinagar, Gujarat

2022 – Present

- Developed and customized business models using StayinFront's TouchCG platform, aligning data models and workflows with client-specific retail and CRM operations.
- Designed and implemented dynamic web dashboards and UI components using HTML5, CSS3, JavaScript, jQuery, and XML.
- Created and configured backend logic using VBScript to support custom workflows, business rules, and field-level behavior.
- Improved database performance by optimizing SQL queries and implementing best practices for data storage and retrieval using Microsoft SQL Server.
- Collaborated with Business Analysts and QA teams to understand functional requirements and deliver tailored business logic solutions.
- Conducted unit testing, code reviews, and debugging to ensure delivery of high-quality, maintainable software components.
- Managed source control and release cycles using Tortoise SVN, contributing to streamlined versioning and deployment processes.
- Authored technical documentation, SOPs, and conducted training sessions for both end-users and internal teams.
- Suggested and implemented best practices for process improvement, product enhancement, and system scalability.
- Actively participated in Agile ceremonies including sprint planning, retrospectives, and daily stand-ups to ensure alignment with stakeholder expectations.

## Technical Skills

- **Business Logic & CRM Configuration:** StayinFront TouchCG platform, model building, custom screen logic
- **Programming & Scripting:** VBScript, JavaScript, C#, HTML5, CSS3, jQuery, Python
- **Database Management:** SQL, SQLite, query optimization, performance tuning
- **UI/UX Development:** XML-based UI configuration, responsive dashboard development
- **Version Control & Deployment:** Tortoise SVN, Git
- **Software Development Methodologies:** Agile, SDLC, sprint planning, testing, documentation
- **Cross-Functional Collaboration:** Business analysts, QA, project managers, end-users
- **Process Documentation & Analysis:** Process flow diagramming, root cause analysis, user stories, and software testing methodologies.

## Education

### Bachelor of Technology – Computer Science Engineering

Shambhunath Institute of Engineering and Technology, Prayagraj

Sep 2022 – CGPA: 7.9

### Diploma in Information Technology

Handia Polytechnic, Prayagraj

Sep 2019 – CGPA: 8.0

## Projects

### Health Monitoring System using Arduino UNO

Developed an IoT-based health monitoring system using Arduino UNO, heart rate sensor, and temperature sensor to collect and display vital health data in real-time. Data was shown on an LCD and could be transmitted wirelessly to a monitoring station.

### Responsive Portfolio Website

Created a fully responsive personal portfolio website using HTML, CSS, and JavaScript. Included sections for About, Skills, Projects, and Contact, along with smooth navigation and a modern UI/UX design.
