Software Engineer with 2+ years of experience in designing, developing, and implementing scalable and responsive enterprise level applications using a configurable approach, creating common framework components for easy and quick development.

EXPERIENCE

Software Development Engineer - 1

Innostax Software Labs

June 2023- Present

Gurugram, India

Bancstac

- Contributed to the integration of Cybersource's credit card payment gateway to enable multi-currency payments, settlements and dynamic currency conversion.
- Investigated and resolved a critical ISO-8583 message timeout bug in card payments, affecting more than 100,000+ daily users.
- Integrated LankaQR to facilitate secure QR-based payments and streamlined transaction processing, along with implementing real-time transaction monitoring using Elasticsearch.
- Designed and developed settlement report generation using cron jobs and bash scripts to securely upload transaction data to FTP servers.
- Enhanced security and PCI-DSS compliance by applying RSA and AES encryption algorithms to sensitive transaction data and user passwords.
- Implemented unit tests using JUnit and Mockito, achieving 90 percent code coverage for 8 Java projects.
- Key Technologies: **Java, Spring Boot, Sockets, Hibernate, Elasticsearch, Spring Data JPA, RabbitMQ, ReactJS, MySQL.**

Tava Trip

- Contributed to the development of a flight and hotel booking platform, improved the speed by 30 percent through code optimization.
- Integrated GDS API's (TBO) for flight and hotel booking and payment systems with Razorpay.
- Migrated application from monolithic to microservices architecture using RabbitMQ and developed serverless APIs and background jobs using AWS Lambda.
- Implemented caching and query optimization using Redis, reducing page load time and improving booking processing efficiency.
- Key Technologies: **ExpressJS, AWS Lambda, RabbitMQ.**

Yokeru

- Led development of Yokeru, an AI-driven platform automating proactive calls from medication reminders to appointments, improving efficiency and operator focus on urgent tasks.
- Integrated RabbitMQ for interservice asynchronous communication allowing decoupling, and improve system scalability and reliability
- Implemented support for multiple database connections for multi-tenancy, enabling dynamic selection at runtime to enhance system adaptability and scalability.
- Key Technologies: **ExpressJS, Docker, AWS Cognito, Github Actions, ReactJS, PostgreSQL.**

Associate Software Engineer

Innostax Software Labs

August 2022-June 2023

Gurugram, India

TavaJS Cloud

- Developed the back-end of a drag-and-drop No Code application that enables users to create databases, define tables, and generate API endpoints, reducing setup time by 50 percent while ensuring consistent API integration, error handling, and state management.

- Developed CI/CD pipelines using GitHub Actions, enhancing deployment efficiency and improving feature delivery times.
- Key Technologies: **ExpressJS, PostgreSQL, Github Actions, ReactJS, Redux, AWS Cognito, OAuth.**

Travellink

- Integrated Hibernate's second-level caching and optimized SQL queries in the booking flow process, enhancing application performance, and reducing database load.
- Optimized and enhanced the frontend by minimizing unnecessary API calls and refining real-time connection, disconnection, and inactivity handling logic.
- Key Technologies: **JSP, Spring MVC.**

PERSONAL PROJECT

A Python

- Developed a fully functional self-playing snake game.
- Implemented A* algorithm in python, pygame for building graphics.

TECHNICAL SKILLS

- Programming Languages:** Java, Javascript
- Libraries & Frameworks:** Hibernate, Spring-boot, Elasticsearch, ExpressJs
- Cloud & DevOps:** AWS, Docker, CI/CD (GitHub Actions), RabbitMQ
- Testing:** JUnit, Mockito
- Database:** PostgreSQL, MySQL

EDUCATION

B.E in Computer Science And Engineering.

Chandigarh University

2017-2021

Mohali, Punjab

- 7.05 CGPA

ACHIEVEMENTS

- Recognized as the "Star of the Month" and part of 'Client's team of the month' for successfully delivering fully functional features in an exceptionally short time frame.
