

I Myself

Hi, My name is Anurag Dubey, and I have 7 years of experience developing full-stack applications to scale and integrate distributed systems. I have completed my Bachelor Of Computer Application from Punjab Technical University.

I want many hats as a full-stack developer and have not limited myself to just one stack. On backend programming, I use PHP and on the frontend spectrum, I enjoy coding in React ,GraphQL HTML, CSS, javascript, and frameworks like VueJs. I have also designed large datasets on MySQL.

I have excellent exposure to REST API design into security. So I know my way around SSL, cookies, tokens, and so on. All my projects were based on TDD (Test Driven Development). Focusing on and resolving application defects, Testing, debugging, and refining the software as a whole.

At this stage of my career, I am still very keen and learning new technologies. I want to work for a company which will not only challenge my technical expertise but would also provide me with attractive career opportunities.

Thank you for your time. If you want to reach me, you can find the details in my profile.

Career Objective

I am hard working and able to prioritise a huge volume of work. I believe that a diplomatic approach to problem-solving is also very important. I am also able to work well on my own initiative and can demonstrate the high levels of motivation required to meet the tightest of deadlines. Even under significant pressure, I possess a strong ability to perform effectively.

Secondary & Higher Secondary School

Course (Stream)/Examination	Institution/University	Month/ Year of Passing	Performance
High School	S.A. Inter College(UP Board)	2009	52.5%
Intermediate	R.B.S.S Inter College(UP Board)	2011	47.2%

Bachelor Education

BCA Bachelor Of Computer Application (Punjab Technical University)

Year	Total Marks	Obtained Marks	Percentage
Ist Year	1450	1113	76.75%
IInd Year	1400	1078	77.00%
IIIRD Year	1400	1123	80.21%

My Skills & Technical Expertise

Core Skills

- Software developments

Programming Skills

- JavaScript (ECMAScript)
- React JS
- Next JS
- GraphQL
- PHP (laravel Core & OOP)
- HTML5
- CSS3

JavaScript Frameworks & Libraries

- JQuery
- Bootstrap
- VueJS
- Next JS

PHP CMS & Frameworks

- Laravel
- Codeignaiter
- Wordpress (Divi,Visual Composer, Mentor)
- Woocommerce
- Opencart
- MVC & MVCL Based Own Framework

Experience With Web Servers

- Apache 2
- Nginx

Experience With DB Servers

- MySQL

Application Programming Interface (API)

- Stripe Payment API
- Klarna Payment API
- Ebay API
- Gunbroker API
- Pusher Messaging Notification API
- Paypal Payment API

Build Tools & Package Manager

- Webpacks
- Babel (JavaScript transpiler)
- NPM
- Composer

Git Hosting Platforms (CVS)

- Bitbucket
- Gitlab
- GitHub

Developer Tools (IDE)

- Netbeans 8.2 (FTP/SFTP)
- Git
- Filezilla
- Putty SSH Client
- Draw.io
- Postman
- VSCode

Artificial Intelligence (AI)

- OpenAI (ChatGPT)

Experience in Domains (Work Based on IT Services)

- Real Estate
- Medical
- Hospitality
- Multi-level Marketing (MLM)

- e-Commerce
- Education sector

Work Experiences
