Summary

Frontend Developer with 2+ years of experience building high-performance web apps. Proficient in React.js, Zustand, and Redux. Optimized a large-scale application for the **Bharatiya Janata Party (BJP)**, handling over 10 million users in a single day — improving performance by 40% and reducing load times by 25%. Passionate about clean architecture, accessibility, and agile collaboration.

Technical Skills

- **Languages:** JavaScript (ES6+), TypeScript, Ruby, HTML5, CSS3
- **Libraries/Frameworks:** React.js, Next.js, Redux, Zustand, Ruby on Rails
- **Tools:** Git, GitHub, CircleCI, Jira, Lighthouse
- **UI Libraries:** Material UI, Ant Design, Bootstrap

Professional Experience

Frontend Developer *Jarvis Technology and Strategy Consulting, New Delhi* Dec 2023 – Present
Technologies: React.js, Next.js, Redux, TypeScript, Docker, Zustand, Git, Jira

- Rapidly developed and launched a reliable React.js web app in **3 days** for a major political party, ensuring seamless access for 10M+ users with **99.9% uptime**.
- Used Zustand for global state management in lightweight features, reducing bundle size by 15%.
- Optimized API calls using React Query, resulting in smoother UX and 20% faster initial loads.
- Ensured WCAG-compliant accessibility standards across all public-facing modules.
- Led refactoring of legacy UI logic into modern React patterns (hooks, context), improving maintainability.
- Participated in daily standups, sprint planning, and code reviews in a cross-functional agile team.

Frontend Developer *Pizeonfly, New Delhi* Jan 2023 – Dec 2023
Technologies: React.js, Ant-Design, JavaScript, Context-API, Bootstrap, Axios, JavaScript, Jira

- Built dynamic, mobile-responsive UI components using React.js and Bootstrap, speeding up feature delivery by 40%.
- Collaborated with designers to convert Figma mockups into pixel-perfect layouts.
- Reduced UI-related production bugs by 25% through improved component testing and proactive QA collaboration.

Independent Projects

E-commerce Website for Electrical Goods (Coming soon)

- Developing a high-performance e-commerce platform using Next.js with features like lazy loading and optimized routing.
- Reduced initial load times by 25% by leveraging server-side rendering and dynamic component imports.

Kalpita Kids - Play School Website (2023)

- Designed and built a fully responsive website using React.js and Bootstrap, integrated with a back-end powered by Node.js and MongoDB.
- Improved SEO and loading speed by 20% through rigorous Lighthouse performance audits.

Education

B-Tech in Electronics and Communication 2018 – 2021
Manav Rachna International Institute of Research and Studies, Faridabad

Diploma in Electronics and Communication 2015 – 2018
Ganga Technical Campus, Bahadurgarh

Key Skills

- Performance Optimization
- Scalable Architecture
- Accessibility Standards
- State Management
- Cross-functional Collaboration
- Code Reviews
- API Integration
- Testing & Debugging
- Version Control
