

Siva M Python Developer

+91 9080595379 | sivamurugan1203@gmail.com | Madurai, Tamil Nadu

Career Objective

Motivated Python Developer with 1.6 years of experience in backend development and web technologies. Proficient in building scalable and secure web applications using Python and Django. Seeking to join a dynamic organization to contribute to innovative projects and enhance technical expertise.

Profile Summary

- 1.6 years of experience as a Python Developer specializing in backend development and RESTful API integration
- Skilled in Python, Django Framework, and Django REST Framework for efficient web applications
- Proficient in MySQL, SQLite, Oracle, and PostgreSQL with expertise in schema design and query optimization
- Experienced in HTML5, CSS3, JavaScript, and Bootstrap for responsive front-end interfaces
- Proficient with Git, GitHub, and GitLab for version control and collaborative development
- Strong knowledge of user authentication, session management, form validation, and secure coding
- Adept at unit testing, debugging, and application performance optimization

Technical Skills

- Languages: Python, JavaScript, SQL, NumPy, Pandas
- Frameworks: Django, Django REST Framework, Flask
- Front-End: HTML5, CSS3, JavaScript, Bootstrap
- Databases: MySQL, SQLite, Oracle, PostgreSQL
- APIs: RESTful API Design, RESTful API Integration
- ORM: Django ORM, SQLAlchemy
- Version Control: Git, GitHub
- Testing and Debugging: Pytest, Manual Testing, Postman API Testing
- Cloud: AWS EC2, AWS S3, Lambda
- Tools: PyCharm, VS Code, Sublime Text
- Other: Linux

Education

Bachelor of Arts in English, Sourashtra Arts and Science College, Madurai, Tamil Nadu, India 2024 | 70%

Certifications

- Machine Learning with Python, European Open University
- JavaScript, European Open University
- Data Analyst with Python, IIE

Professional Experience

Programmer Analyst Aastrazen Technologies, Chennai November 2023 – Present

- Developed backend modules using Python and Django for client-focused web applications
- Designed and implemented RESTful APIs and managed database operations
- Collaborated with front-end developers and project managers to deliver robust solutions
- Performed unit testing and debugging to ensure high performance and reliability

Projects

E-Learning Platform Client: EduTech Hub | Domain: E-Learning | January 2023 - April 2024

- Built backend using Python and Django with MVC architecture
- Developed RESTful APIs for user registration, login, course management, and quizzes
- Designed and optimized database schemas using MySQL and SQLite
- Implemented role-based access control (Admin, Instructor, Student) with Django authentication
- Created responsive UI with HTML, CSS, JavaScript, and Bootstrap
- Conducted unit testing, debugging, and performance optimization

Instant Loan Application Platform Client: LoanXpress | Domain: Finance | May 2024 - Present

- Developed secure backend logic using Python, Django, and Django REST Framework
- Built RESTful APIs for loan processing, user onboarding, and application tracking
- Designed robust database structures in MySQL and Oracle for sensitive customer data
- Integrated third-party APIs for real-time credit scoring and identity verification
- Implemented JWT-based authentication for secure API transactions
- Created interactive, responsive loan forms using HTML, CSS, and JavaScript
- Ensured compliance with financial security and data privacy standards
- Optimized database queries and indexing for enhanced performance
